## THE RELENTLESS PURSUIT OF PERFECTION

Riding pleasure starts long before you get onto your motorcycle. Because when you know your safety is taken care of, you're free to enjoy the buzz of anticipation whenever you suit up for the next journey. That's why BMW Motorrad created the C.A.R.E. stamp of approval. C.A.R.E. stands for Concept of Advanced Rider Equipment, and represents the unwavering commitment to **safety, innovation, comfort** and **quality** that goes into designing every item of BMW Motorrad rider equipment.

Each product is years in the making. Whether we're talking about the hard-wearing new materials developed by a dedicated R&D team, the sophisticated design elements that increase both protection and comfort, or the testing methods devised and employed in-house, the highest standards are applied from start to finish. This relentless pursuit of perfection allows BMW Motorrad to ensure that its products meet standards far more stringent than CE and EU norms. Only then will they receive the C.A.R.E stamp of approval. We want you to enjoy riding your motorcycle – and that doesn't just mean meeting standards. It means surpassing them, in everything we do.

Find out more at  
[bmw-motorrad.com/care](http://bmw-motorrad.com/care)

### SAFETY

Safety is the number one priority when out on the road. And this doesn't just apply to the bike itself – it means having the right protective clothing, too. When riders take to the tarmac, they're completely exposed, and there's a lot going on around them. They need to be prepared for anything that comes their way. That's why safety is one of four C.A.R.E. criteria, and central to the development of our rider equipment. Every last detail is subject to intense scrutiny to ensure comprehensive protection.

We take great care in ensuring that our products are compatible with one another. Whether you go for a BMW Motorrad jacket and pants, or combine several other products, each item must function as part of a single protective unit that leaves no part of the body vulnerable.

On all of our pants, jackets and suits, those areas most at risk in the event of an accident are reinforced, double stitched and fitted with state-of-the-art CE protectors. This ensures the garments can withstand all the usual stresses and strains of day-to-day riding, and even the hardest impacts on asphalt and gravel, without sacrificing freedom of movement.

The materials and treatments, the manufacturing techniques, and every test at every stage all reflect the pursuit of one goal: to provide riders with the highest level of active and passive safety and the most enjoyable ride possible. After all, at BMW Motorrad, safety is about providing total peace of mind.

### COMFORT

Just like safety, comfort is a crucial factor in the development of rider equipment. Ultimately, it's about providing maximum passive protection while ensuring riders are not distracted by any of the garments they are wearing.

Whatever the weather conditions, and however hot or cold it may be, anything less than total comfort might diminish their ability to react. That's why BMW Motorrad clothing includes the latest ventilation and membrane technologies.

Not only do our products look and feel great, they're also supremely functional. We strive to set new standards in everything we do. Whether it's the collar, the sleeves or the cuffs – we're meticulous about every part of every garment, no matter how big or small.

### INNOVATION

Innovation has been at the heart of BMW Motorrad since it was established in 1923. We've also led the way in the development of rider equipment since the mid-seventies. We've invested years of research, development and testing to create solutions that meet a wide-ranging set of requirements for motorcycling clothing – with the aim of making the best even better.

Our groundbreaking BMW climate membrane technologies are prime examples of this: c\_change™ breathes in summer to keep riders cool, while locking in warmth on colder days, while the BMW climate membrane also offers a waterproof rating of 10,000 mm. Combining unprecedented damping properties with maximum comfort, our NP and NP2 protectors are great examples of why BMW Motorrad rider equipment is at the forefront of innovation.

C.A.R.E. is more than a seal of approval – it's a promise to our customers that we're constantly breaking new ground to deliver safer, higher-quality and more comfortable products.

### QUALITY

At BMW Motorrad, we know that raising the bar means going to great lengths. That's why we put our products through mile after mile of testing to identify and eliminate any potential weaknesses. Every item in the BMW Motorrad rider equipment range is designed and built to endure the countless miles riders cover.

There are no legal requirements for quality and durability, so we decided to create our own standard with its own set of criteria. And this is something we're taking very seriously. In our dedicated laboratory, every item of BMW Motorrad rider equipment is tested down to the last detail to ensure incomparable quality – and this includes the development processes and the materials used to make them.

We shake, scrape and smash practically everything within our reach in our test facilities. As a result, you're unlikely to find the same level of quality anywhere else.

# C.A.R.E. STANDARDS: A COMPARISON

## SAFETY

CATEGORY	INDUSTRY STANDARD	C.A.R.E. STANDARD
Impact absorption	There is no legal requirement for specially fitted right and left-side protectors.	BMW Motorrad offers right and left-side protectors that can be adapted to the rider's specific shape. They offer excellent impact absorption performance and have won countless consumer awards.
Tear resistance	Materials must offer a minimum resistance of 100 N/cm <sup>2</sup> . (DIN EN ISO 13937-2:2000; tear resistance*)	We aim to use materials that can resist a force of 1000 N/cm <sup>2</sup> .
Impact/abrasion resistance	In standard industry testing, materials are exposed solely to an abrasive belt running at approx. 18 mph. (DIN EN ISO 13595-2:2002; impact abrasion resistance*)	The BMW testing institute simulates the impact, fall and slide of a 165-lb rider on motorway tarmac, at speeds of up to 75 mph.

## INNOVATION

CATEGORY	INDUSTRY STANDARD	C.A.R.E. STANDARD
Water resistance	According to DIN standards, fabric with a water head of 1,300 mm is considered waterproof. (DIN EN 20811:1992; water resistance*)	The BMW climate membrane offers a 10,000-mm head of water, while also being incredibly breathable.
Practicality	Legal requirements do not call for motorcycle clothing to be tested in use at all.	BMW Motorrad test riders assess the practicality of every item we produce over numerous rides (including endurance testing) in a range of weather conditions.

\* As of October 2014

## COMFORT

CATEGORY	INDUSTRY STANDARD	C.A.R.E. STANDARD
Fit and ergonomics	In general, only standardized sizes are available. (DIN EN ISO 340*)	The sizes we offer are based entirely on the dimensions measured and supplied to us by our customers.
Height-adjustable protectors	There is no legislation that requires knee protectors to be height-adjustable.	Our protectors are height-adjustable as standard, ensuring the perfect fit for each rider.

## QUALITY

As there are no legal requirements for quality, we work from the relevant DIN EN ISO standards.

CATEGORY	INDUSTRY STANDARD	C.A.R.E. STANDARD
Resistance to fading	No industry standard.	Garment samples are spread out under xenon light to test their resistance to fading. (Taken from DIN EN ISO 105-B02:2002; resistance to fading*)
Rub fastness	No industry standard.	Each material is placed alongside a wet or dry testing fabric, and the two are rubbed together. The material's rub fastness is assessed based on the coloring of the test fabric. (Taken from DIN EN ISO 105-X12:2002; rub fastness*)
Color fastness to perspiration	No industry standard.	Textiles are placed alongside a testing fabric soaked in sweat, and the two are rubbed together. (Taken from DIN EN ISO 105-E04:2013; fastness to perspiration*)
Oil repellency	No industry standard.	Materials are tested for their resistance to oil in the same way as the color fastness analysis. (Taken from DIN EN ISO 105-X12:2002; rub fastness*)
Fastener abrasion resistance	No industry standard.	Textiles are subjected to the Martindale abrasion test, at a force of 9kPa over 4000 cycles, to assess their resistance to wearing. (VDA 230-210:2008, taken from DIN EN 530:2013; fastener abrasion resistance*)
Washing fastness	No industry standard.	Textiles are sewn into a piece of test fabric, then placed in a beaker full of detergent solution and agitated. The test fabric is then dried, and the coloring assessed. (Taken from DIN EN ISO 105-C06:2010; textile washing fastness*)

# SUITS

Motorcyclists place a lot of value on being protected from the elements at all times, come what may. From well-ventilated summer outfits and waterproof touring suits to leather one-pieces, BMW Motorrad offers perfectly designed solutions for every scenario. And with the Rallye suit, there's even a model for the most demanding of globetrotters.

### AIRFLOW SUIT

#### MEN AND WOMEN'S CUT

Even on the hottest summer days, the AirFlow summer suit will keep you cool and fresh. Stretch and mesh inserts made of abrasion-resistant Dynatec material provide excellent ventilation and freedom of movement. In black, this suit has an additional Coldblack finish, to prevent it from heating up.

- The perfect summer suit for warm weather
- Abrasion-resistant Dynatec outer
- Removable NP2 protectors at shoulders, elbows, back, hips and knees (height-adjustable at elbows and knees)
- Generous stretch Dynatec on the upper back for maximum freedom of movement
- AirTex mesh inserts on the chest, arms and thighs for optimum ventilation
- Mesh lining is extremely air permeable and elasticated
- Includes windproof Cover jacket to wear over top in cooler weather; can be stowed in back pocket
- Reflective material on the jacket and pants
- Black version incl. Coldblack technology
- Dirt and water-resistant finish
- Soft material on the collar, sleeve seams and pant waistband
- VELCRO® fasteners to adjust width of pant waistband, sleeve cuffs and pant cuffs, and waist of the women's jacket
- Two built-in carry straps mean jacket can also be worn as backpack
- Two side jacket pockets, one back pocket, three inner pockets, two pant pockets (most pockets with zips)
- Extra: waterproof pouch in jacket pocket e.g. for your smartphone or wallet
- Connector zip: 40 cm and all-round
- Regular fit
- CE-certified

### ENDUROGUARD SUIT

#### MEN AND WOMEN'S CUT

Be prepared, whatever the weather. This professional adventure suit is the pinnacle of performance and practicality. The specially developed outer material made of Dynatec and Dynatec Stretch (with a partial ceraspace print) offers the highest levels of abrasion resistance. The three-layer laminate with BMW climate membrane offers perfect temperature regulation in this breathable, windproof and waterproof suit. A variety of ventilation zips and other clever details help create a bona fide 'comfort zone' for the rider.

- Highly abrasion-resistant outer material made of Dynatec and Dynatec Stretch (with a partial ceraspace print), developed by BMW in partnership with Schoeller Textil AG.
- Three-layer laminate with BMW climate membrane: windproof, waterproof and highly breathable
- NP2 protectors at back, shoulders, elbows, hips and knees (steplessly height-adjustable)
- Coccyx protector retrofittable
- Unparalleled all-round ventilation thanks to a variety of vents; double front zip serves as an air vent
- Mesh lining in jacket and pants, plus 3D mesh lining in back; breathable and elastic
- Eight jacket pockets, seven of which are waterproof, men's jacket with an additional chest pocket, three pant pockets, incl. one key case
- Wide sleeves and pant cuffs feature a windbreaker for optimum protection in inclement weather
- Waterproof storm hood integrated into the collar
- Leather on insides of knees for a firm grip on the tank when you're riding off-road
- VELCRO® fasteners and press studs offer adjustable widths
- Reflective print on jacket
- Connector zip: 40 cm and all-round
- Comfort fit
- CE-certified

### GS DRY SUIT

#### MEN AND WOMEN'S CUT

Take to the streets with the adventure look. This waterproof motorcycling suit is the perfect companion for any tour, offering optimum weather protection for every adventure. In the heat of the summer, its unique ventilation system comes into its own, thanks to the robust CORDURA® 500 material with highly breathable BMW climate membrane.

- Waterproof adventure suit, suitable for touring
- Outer made from robust CORDURA® 500/polyamide blend for optimum durability
- BMW climate membrane ensures suit is windproof, waterproof and highly breathable
- Enhanced protection on areas most susceptible to falls, with half-tone PU coating with ceramic particles
- Removable NP2 protectors at shoulders, elbows, knees (height-adjustable) and hips
- Includes long NP Pro back protector
- Unique watertight zips also open the membrane for direct airflow to cool the upper body
- Stretch inserts at the arms, knees and seat
- 3D air mesh lining at the back for optimal circulation
- VELCRO® straps for adjustable fit on the sleeves, waist and pant hemline
- Two waterproof flap pockets
- One chest pocket, one sleeve pocket and two pockets each on the back and on the pants
- Leather trim on the interior at the knee for secure grip during off-road riding

### RALLYE SUIT

#### MEN'S CUT

The Rallye suit is full of handy features that make it the perfect globetrotter. The watertight insert can be worn both under and over the jacket for optimum protection from rain, wind and dirt. This well-ventilated suit is also made of abrasion-resistant ProTechWool material and has several pockets for storing your personal items.

- Off-road suit suitable for warm to moderate temperatures with detachable waterproof insert
- ProTechWool, a quick-drying, temperature-regulating performance fabric made from wool and polyamide with a carbon finish
- Wind and waterproof inner/outer jacket: when worn as an over jacket also protects from dirt
- Pants with wind and waterproof BMW climate membrane insert with comfort mapping: Membrane qualities matched to different areas of the body
- Material reinforced in areas most susceptible to falls
- Elastic, breathable mesh lining in the jacket
- Pants with elastic inserts
- Long leather trim on the interior at the knee for secure grip during off-road riding
- Hem edge reinforced
- NP2 protectors on shoulders, elbows, hips and knees (adjustable to three different heights)
- Long NP Pro back protector
- Optional chest guard, attached via four press studs
- Sophisticated ventilation system using flaps on chest, zips on arms and legs, and large air outlet panel on back
- 3D air-mesh lining on the back to allow air circulation under back protector
- VELCRO® and press studs for width adjustment
- Wide, easily adjustable leg openings
- Jacket: Six front pockets (two waterproof), one large and one small pocket on the lower back, two zipped inner pockets
- Easy-access pouch for the TrinkPak Hydra
- Four pant pockets
- Reflective material on the sleeves, back and pants
- Connector zip: 40 cm
- Regular fit
- CE-certified

## DARKNITE SUIT

### MEN AND WOMEN'S CUT

A modern leather suit cut in a classic style, the DarkNite suit offers the purest riding experience. Made with high-quality, unsealed cowhide leather, each suit retains its natural authenticity and boasts a unique patina. Additions such as removable NPL and NP2 protectors, padded inserts and more mean you can ride in confidence – without sacrificing the jacket's classic styling.

- Modern suit made of high-quality cowhide leather
- Abrasion-resistant, natural full-grain cowhide leather (1.0–1.1 mm)
- Water-repellent, but not waterproof
- Naturally breathable leather regulates body temperature and moisture effectively
- NPL protectors at the back, shoulders, elbows and knees (steplessly height-adjustable), NP2 protectors at hips (removable)
- Stretch fabric at the back, above the knee and on the rear pant waistband for optimum freedom of movement
- Padded inserts at the collar and shoulders
- Jacket waistband and women's pants adjustable via press stud fastener
- Sleeve and pant cuffs feature metal zips
- Stand-up collar closable with press stud
- Three zipped outer jacket pockets, three inner pockets (incl. a smartphone pocket), four pant pockets (zipped back pockets)
- Premium metal BMW Motorrad lettering on back, embossed BMW logotype on the left upper arm
- Cotton lining at the chest and back with large print on the back, mesh lining in the sleeves and pants
- Connector zip: 40 cm
- Regular fit
- CE-certified

### BLACKLEATHER JACKET

#### MEN AND WOMEN'S CUT

Laid-back style and effective protection don't have to be mutually exclusive. The fashionable BlackLeather jacket – with its abrasion and tear-resistant, water buffalo leather outer and protectors for the shoulders and elbows – offers all the protection you need for safe motorcycling, and ensures that wherever you go, you'll always look the part.

- Leather jacket with worn finish, relaxed fit
- Abrasion and tear-resistant water buffalo leather, approx. 1.0–1.2mm
- Removable NPL protectors at the shoulders and elbows
- NPL back protector can be retrofitted
- Padded inserts on shoulders, upper arms and sides
- Waist adjustable with stud fastener
- Stand-up collar closable with press stud
- Zip at the wrist
- Two outer side pockets, one chest pocket (men), two inner pockets
- Unpolished metal zip with an antique look
- Large 'Ride Wild' print on the back lining
- BMW logotype on the upper arm, BMW Motorrad lettering on the rear waistband
- Connector zip: 40 cm
- Regular fit
- CE-certified

### CLUB LEATHER JACKET

#### MEN AND WOMEN'S CUT

This sporty, modern Club leather jacket for men is suitable both as a motorcycle jacket and for leisure wear due to its casual style. It is made of high-quality abrasion-resistant cowhide and impresses with its excellent wearing comfort. Below the stylish surface, protectors are concealed at the shoulders and elbows. A back protector is retrofittable.

- Motorcycling and casual leather jacket
- Wear-resistant soft cowhide leather (approximately 1–1.2mm thick), lightly waxed and tumbled
- Removable NPL protectors at the shoulders and elbows
- NPL back protector can be retrofitted
- High collar with attractive and functional workmanship, can be closed with press stud
- Silhouetting blue and red leather highlighters on the shoulders and sleeves
- Full-length metal front zipper
- Four or three zippered outside pockets (men and women) as well as two inside pockets and a smartphone pocket
- The '1978' inscription – the birth year of BMW Motorrad rider's equipment is on the lining as a print and as embossing on the sleeve
- Connector zip: 40 cm
- Regular fit
- CE-certified

### CLIMAPROTECT PANTS

#### UNISEX

ClimaProtect pants are a practical companion when commuting. They are made of a polyamide and elastane material mix which together with BMW Climate Membrane offers abrasion resistance. They are elastic, waterproof and breathable. Thanks to long zip fasteners at the sides, they can be easily pulled over normal pants. Benefit from protectors at the knees and retrofittable hip protectors.

- Textile motorcycling pants made of three-layer laminate
- Abrasion-resistant material made of polyamide and elastane/stretch
- Wind- and waterproof, and breathable thanks to BMW Climate Membrane.
- Close fit
- Preformed leg for good seating comfort
- Long, side zip fastener for putting them on in shoes
- Removable NPL protectors on the knees (height-adjustment is very easy), optional NP2 protectors can be inserted at the hips
- Waistband with elastic
- No pockets
- Reflective print at bottom with BMW Motorrad lettering
- Connector zip: 40 cm
- CE-certified

### PRORACE BOOTS

#### UNISEX

Waterproof, breathable ProRace boots for men not only impress with their Race look, but also with many practical details. Among other features, they offer side and heel guards, a gearshift lever protector, and soft suede leather on the inside of the bootleg for the best possible contact with the motorcycle. The insole is removable and washable.

- Sporty stylish boots with side and heel plastic sliders
- Replaceable side sliders, inserted and fixed with a screw
- Lightweight, touring-suitable entry-level boots
- Upper: synthetic leather, with napped leather inner (cowhide)
- Waterproof, windproof and incredibly breathable thanks to the BMW Climate Membrane
- Anatomically moulded shin guard
- Interior reinforcement at toes
- Shock absorbers at heel
- Shift-lever guard made of soft PU
- Boot leg liner of soft napped leather ensures better contact to the motorcycle
- Easier pulling on and off as well as individual adjustment at the foot by means of zip fastener with elastic band on the inside of upper

- Generous adjustment to a neat fit on the calf thanks to wide VELCRO® surface
- Stretch zones at the instep and the heel
- Anti-slip rubber treaded sole
- Washable insole, removable
- Functional liner, perforated in the boot leg
- Loop to help carrying
- Large RACE inscription on the shin guard
- Shaft height at back approx. 28 cm in size 42 boots
- CE-certified according to DIN EN 13634

### ENDUROGUARD GLOVES

#### UNISEX

The multifunctional EnduroGuard glove with twin-chamber technology is truly unique, allowing riders to easily switch chambers when weather conditions change. The PROOF chamber is windproof and waterproof, with a lining for thermal insulation. The GRIP chamber features wafer-thin, abrasion-resistant kangaroo leather for a crease-free, tactile fit.

- Adventure gloves with twin-chamber technology, which allows riders to switch chambers when weather conditions change.
- PROOF upper chamber is breathable, waterproof and windproof thanks to GORE-TEX® 2-in-1 technology with a lightweight, insulating pique jersey lining
- GRIP lower chamber made of highly abrasion-resistant kangaroo leather (approx. 0.7 mm), unlined and perforated for maximum grip
- Back of hand: blend of soft cowhide leather and Schoeller® Dynatec
- Highly abrasion-resistant ceraspace print on the knuckle protectors and ball of the hand
- Double-thickness leather on edge of hand
- Plastic protective shell over knuckles with shock-absorbing foam
- Lightweight foam on finger backs and back of the hand
- Touchscreen-compatible index finger and thumb tips
- Rubber wiper lip on left index finger
- Mid-length cuff with VELCRO® width adjustment
- Reflective material on the outside
- Special seams prevent pressure points on the fingers and palm of the hand

### AIRFLOW GLOVES

#### UNISEX

These gloves are designed to complement the AirFlow suit, but are also perfect for any summer excursion. They combine thin, abrasion-resistant materials such as goatskin leather and AirTex that deliver both grip and protection. Knuckle protectors and impact-absorbing foam protect the back of the hand, while holes in the insides of the fingers ensure optimum ventilation. Your next summer tour won't be complete without them!

- Lightweight, well-ventilated summer gloves
- Highly breathable goatskin leather and large air-permeable Schoeller® AirTex applications on the back of the hand
- Perforations on back of hand and between fingers for improved ventilation
- Double-thickness palm, balls of the hands lined with Schoeller® Keprotec padding
- Leather-covered plastic protective shell over knuckles, with ventilation holes and a shock-absorbing foam lining
- Lightweight foam on finger backs
- Short wrist cuff with VELCRO® strap
- Soft cuff material prevents chafing of the wrist
- Preshaped design prevents pressure points at the fingers
- Palm unlined for a firmer grip
- Suede leather thumbs for wiping visor
- CE-certified according to DIN EN 13594

### RALLYE GLOVES

#### UNISEX

When the road heats up, these lightweight, summery enduro gloves help you to keep your cool. You'll always have the upper hand with this mix of materials: robust kangaroo leather, goatskin leather and elasticated Spandex. And the shock-resistant hard shell offers the ultimate protection for off-road touring.

- Every detail of these summer adventure gloves has been designed for off-road riding.
- Two colors to match the rallye suits
- Palm made of abrasion-resistant kangaroo leather, double-thickness in key areas; sandwich construction made of memory foam and a double leather layer along the scaphoid bone
- Top of glove made from an elasticated and airy goat leather and Spandex mix
- BMW Motorrad hard shell with memory foam underlay
- Short cuffs made of goat leather, with VELCRO® fastening
- Ultimate ventilation provided by slits in the hard shell and netting at the base of the fingers
- Palm: Special seams prevent pressure points at the fingers
- Lower hand not lined
- Leather pads with foam cushioning protect the fingers when driving through foliage and also prevent wear and tear

### HIGH VIZ VEST

**UNISEX**

The sleeveless HighViz vest is designed for particularly safety-conscious riders. Its neon yellow color and reflective applications on the chest and back considerably improve the rider's visibility. And because the vest is close-fitting, it does not flutter in the wind. The vest can be worn with any BMW Motorrad jacket.

- Fluorescent yellow high-visibility jacket made of air-permeable polyester
- Standards-compliant and stylistically highlighted silver reflective application on the chest and back
- Excellent visibility in all weather conditions
- Close, flutter-free fit
- Matches all BMW Motorrad jackets
- Certified to EN 1150

### COOL DOWN VEST

**UNISEX**

This revolutionary functional vest uses evaporation to cool riders. When the vest is wet or damp, the HyperKewl system locks in the moisture and stores it for up to eight hours, providing a 6 to 12 °F temperature reduction for the wearer.

- A cooling vest with HyperKewl functional fabric at the front and back
- Constant cooling effect through evaporation
- Outer material: nylon and polyester functional fiber
- Stretchy side sections made of mesh
- Front zip

### RIDE QUILTED JACKET

#### MEN AND WOMEN'S CUT

The breathable Ride quilting jacket is especially thin, meaning it can be worn under all BMW Motorrad jackets. Thanks to the stylish, slim-fit design, it can also be worn by itself.

- Practical quilted jacket, thin and lightweight, comfortably warm, breathable
- Can be worn alone or with any Motorrad motorcycling jacket
- Polyamide upper
- Thin quilting with PrimaLoft (80g), double-thickness at elbows and shoulders
- Soft shell stretch inserts at the side for a good fit
- Loop at collar to attach to motorcycling jacket
- Zip at the lower back allows you to use the 40-cm connecting zip on motorcycling jackets and pants
- Water stop on the bottom hem and collar to avoid a suction effect in wet weather
- Close-fitting collar for maximum comfort
- Two zipped outer pockets, PackAway inner pocket (small pack size)
- Biker look with quilting at elbows and shoulders
- Figure-hugging cut, women's jacket features additional tapering at the waist
- Regular fit

### PCM JACKET

#### UNISEX

Whatever the mercurial spring and autumn weather brings, this jacket's innovative phase change material will keep you warm, dry and comfortable. The multifunctional jacket can not only be worn underneath any motorcycling jacket - its removable sleeves mean it can also be worn by itself as a vest.

- Highly functional mid-layer that can be worn both on and off the bike
- Blend of soft shell, stretch and Schoeller® PCM fabrics
- Schoeller® PCM: active temperature regulation and dynamic climate control
- Graphical material description on the left pocket pouch (inner)
- Removable sleeves offer the perfect fit, by itself or as a vest under a motorcycling jacket
- Two zipped outer pockets on sides
- Opening at the lower back allows you to use the 40-cm connecting zip on motorcycling jackets and pants
- Loop at collar to attach to motorcycling jacket
- Perfect for temperatures between 50°F and 68°F
- Regular fit

### BACK PROTECTOR

#### UNISEX

The back protector reduces the risk of injury to the spinal column, shoulders and kidney area. After buckling it on, the rider wears the protector underneath their motorcycle jacket. It is particularly lightweight and breathable. Body heat then ensures a perfect fit, just like tailor made.

- Strap-on protector with integrated, steplessly adjustable kidney belt
- Optimum protection reduces the risk of injury
- Innovative Cross protector by KOMPERDELL on back: flexible multi-layer and multi-chamber design, supple fit thanks to Dual-Density foam, breathable and lightweight
- Upper: blended fabric made of polyester and elastane
- Ergonomically shaped shoulder straps, padded and height-adjustable; with integrated press studs for retrofitting the BMW Motorrad chest protector
- High breathability due to generous perforation

- Good impact absorption properties
- Amply sized shielding for the spinal column, the shoulder-blades and the kidney area
- Very light in weight
- Back protector certified as per DIN 1621-2, level 2.

### BACK PROTECTOR VEST

#### UNISEX

The protector vest is a comfortable alternative to a back protector. Thanks to amply-sized coverage of the spine, the shoulder and kidney area, and the chest, it demonstrably offers particularly effective protection. Body heat helps it to achieve an optimal fit, while remaining highly breathable.

- Vest with integrated Cross back and chest protector
- Optimum protection reduces the risk of injury
- Outer material made of polyester and Lycra (tricot)
- Innovative Cross protectors by KOMPERDELL on back and chest: flexible multi-layer and multi-chamber design, supple fit thanks to Dual-Density foam, breathable and lightweight.
- High breathability due to generous perforation
- Good impact absorption properties
- Amply sized shielding for the spinal column, the shoulder-blades and kidney area, and the chest
- Side front zip fastener to easily put it on and take it off
- Rolled neckline and armhole due to double-layered design of the vest, making it especially comfortable and flexible
- Back protector certified as per DIN EN 1621-2, level 2.
- Chest protector certified as per DIN EN 1621-3, level 1.

# ***BAGS/ ACCESSORIES***

Whatever the weather, there will always be riders out and about – which is why the right equipment is absolutely essential. No matter how rough the conditions, there's a suitable soft-luggage solution in the BMW Motorrad range. Take the luggage roll, for example. It attaches quickly and easily to every BMW motorcycle, and it's equally suitable for day trips or lengthy tours.

<b>Function backpack</b>	76
<b>Small function backpack</b>	76
<b>Giant bag</b>	77
<b>BMW Motorrad helmet bag</b>	77

<b>Ride hip bag</b>	79
<b>TrinkPak Hydra</b>	80
<b>Ride sunglasses</b>	80
<b>Functional sunglasses</b>	80

### FUNCTION BACKPACK

An innovative backpack with a partitioned main compartment. The bag has a maximum capacity of 30 liters, a waterproof inner pouch and a whole host of storage options. But the real pièce de résistance is the carry strap stored in the back that allows you to secure the backpack directly to your motorcycle.

- High-quality motorcycling backpack for touring
- Capacity: expandable from approx. 30 to 35 liters
- Upper: Made of hard-wearing tarpaulin and nylon
- Waterproof main compartment with laptop section (up to 15 inches)
- Can be expanded for helmet
- Four outer pockets, inner mesh compartment
- Divisible main compartment, lower section can be accessed separately
- Ergonomically shaped back section
- Adjustable shoulder straps (padded), waist strap (removable) and chest strap
- Travel-bag-style handle
- Fixing straps for additional luggage on outside
- Can be attached to a bike as a luggage roll

<b>COLOR</b>	Grey/White/Red/Black
<b>PRICE</b>	Backpack \$179.00

### SMALL FUNCTION BACKPACK

The small Function backpack is the perfect size for day trips and the daily commute. Rain showers are no problem for this bag thanks to its waterproof main compartment with an integrated laptop sleeve (up to 15"). The back of the Function backpack also features a pouch for the TrinkPak Hydra.

- High-quality, functional backpack
- Waterproof main compartment with roll closure, incl. laptop sleeve (up to 15") and small inner pocket
- Four outer pockets, incl. one in the cover flap, splash-resistant (rubber-lined zips)
- Pouch for the TrinkPak Hydra on the back (approx. 2 liters), closable with a press stud
- Mesh lining in the cover flap
- Ergonomically shaped back section
- Adjustable shoulder, chest and waist straps
- Carry straps on the front and top
- Reflective material on the shoulder straps, cover flap and front
- BMW Motorrad logotype on front
- Upper: water-resistant, easy-care polyester blend
- Inner lining: polyamide blend
- Weight approx. 550 grams
- Dimensions (HxWxD): approx. 40x30x16 cm
- Capacity: approx. 20 liters

<b>COLOR</b>	Grey/White/Red/Black
<b>PRICE</b>	Backpack \$129.00

### GIANT BAG

The sturdy travel bag (with a 90-liter capacity) offers more than enough room for all your gear. The two-part inner compartment features a helmet compartment, boot bag and elastic cross straps. A telescopic handle and low-friction casters make it the ideal mobile storage solution.

- Sturdy travel bag designed for motorcycle riders
- Approx. 90 liters, holds a complete set of rider equipment
- Hard-wearing outer material, reinforced back and base
- Lockable main compartment, interior divided into two
- Padded helmet compartment, foldaway partition
- Zippered outer compartment, two large compartments in lid

- Easy handling: lightweight, with low-friction castors and telescopic and carry handles
- Four compression straps
- Includes separate boot bag

<b>COLORS</b>	Black/Grey/White
<b>PRICE</b>	Bag \$329.00

### BMW MOTORRAD HELMET BAG

The BMW Motorrad helmet bag is the perfect way to transport and store your motorcycling helmet. The rigid base protects the helmet even when parked up, while vents guarantee the best possible air circulation.

- Premium helmet bag with a classic design
- Ideal for transporting and storing motorcycling helmets
- Rigid base with integrated vents
- Padded main compartment accessible via a long, double-zip closure
- Soft fleece inner lining helps prevent scratches on the helmet and visor
- Practical outer pocket for small bits and pieces, e.g. keys; closable with a stud fastener
- Robust carry handles and detachable shoulder strap with high-quality metal clasps
- BMW Motorrad logotype on front
- Functional upper material made from polyester with a fabric-look finish, water-resistant and easy-care
- Dimensions (HxWxD): approx. 26x36x21 cm
- Capacity: approx. 20 litres

<b>COLOR</b>	Black
<b>PRICE</b>	Bag \$79.00

### LUGGAGE ROLL

The waterproof luggage roll has a large opening, making it easy to pack whatever you might need to take with you. The small mesh outer pocket and waterproof zipped inner pockets provide space for less bulky items. Adjustable compression straps for volume adjustment. The luggage roll also comes with an adjustable and detachable shoulder strap plus a padded carry handle.

- Waterproof luggage roll
- Capacity: approx. 50 liters
- Outer: hard-wearing tarpaulin, textile-look base
- Removable, 3D-formed EVA base plate
- Large opening for easy packing
- Detachable shoulder strap, carry handle
- Includes adjustable straps with snaplock buckles for easy securing
- Reflective material on front and sides, BMW Motorrad reflective print

<b>COLOR</b>	Dark Blue
<b>PRICE</b>	Luggage Roll \$249.00

### SMALL SOFTBAG

Need even more room? This 30-liter softbag can be expanded by an additional 5 liters. It has a watertight main compartment made of hard-wearing, easy-care material, and is easy to attach to the luggage grid or the pillion seat using the supplied fasteners.

- Rear bag made of flexible material
- Capacity: expandable from approx. 30 to 35 liters
- Waterproof main compartment, four water-resistant outer pockets
- Tear-resistant, fabric-finish polyester
- Formed EVA on base and back
- Detachable shoulder strap, carry handle
- Easy attachment
- Retaining tabs, adjustable straps and snaplocks
- Large reflective areas on front and sides

<b>COLOR</b>	Dark Grey
<b>PRICE</b>	Small Softbag \$189.00

### LARGE SOFTBAG

The large, high-quality softbag has a waterproof 50-liter main compartment. Capacity can be expanded by up to 5 liters with patch pockets. The sturdy EVA base fits all BMW Motorrad models and includes a non-slip coating. With quick fastening system.

- Rear bag made of flexible material
- Capacity: expandable from approx. 50 to 55 liters
- Waterproof main compartment, four water-resistant outer pockets
- Tear-resistant, fabric-finish polyester
- Formed EVA on base and back
- Detachable shoulder strap, carry handle
- Easy attachment
- Retaining tabs, adjustable straps and snaplocks
- Large reflective areas on front and sides

<b>COLOR</b>	Dark Grey
<b>PRICE</b>	Large Softbag \$239.00

### MESSENGER BAG

Whether heading to work or riding around the city, this practical messenger bag made of durable canvas material will be your constant companion. Offering a generous 18-liter capacity with plenty of room for a 17" laptop and accessories, the bag is well-protected from the elements thanks to a waterproof main compartment with a roll closure.

- High-quality canvas messenger bag
- Stylish look with diagonal top edge
- Large, waterproof main compartment with roll closure
- Interior: 17-inch laptop compartment and bottle holder
- Two zipped outer pockets, DIN A4 at back, front with organizer (not waterproof)
- Decorative locking belt, metal closure with embossed BMW logo, choice of four buckles
- Adjustable, two-tone shoulder strap featuring woven BMW Motorrad logotype
- Additional carry handle
- Length-adjustable, removable waist strap to secure bag when riding
- BMW Motorrad logotype on back
- W x H x D: approx. 47 x 35 x 11 cm
- Capacity: approx. 18 liters

<b>COLOR</b>	Black
<b>PRICE</b>	Messenger Bag \$129.00

### RIDE HIP BAG

Perfect for day trips, the Ride Hip Bag offers plenty of room for your wallet, keys and more besides. A waterproof main compartment ensures rain doesn't dampen the fun.

- High-quality hip bag for day trips on and off the bike
- Waterproof main compartment with full-length two-way zip fastener
- Inner bag with a roll closure keeps the main compartment completely dry
- Small mesh bag (left) plus three small zipped outer pockets
- 3D mesh lining at the back for optimal air circulation
- Steplessly adjustable waist strap, carry handle
- Decorative reflective print (Boxer engine) on the front
- BMW Motorrad logotype on cover flap.

- Functional upper material made from polyester with a fabric-look finish, water-resistant and easy-care
- Dimensions (HxWxD): approx. 18x20x11 cm
- Capacity: approx. 3 liters

<b>COLOR</b>	Black
<b>PRICE</b>	Hip Bag \$59.00

**DRINKPAK HYDRA**

Get thirsty while speeding along the highway? Give up the water bottle and go for this adaptable drinking system. Simply fill it with up to 2 liters of liquid, secure the lock mechanism, insert the tube via the Plug&Play connector and stow everything in your Rallye suit or a backpack. Simply sip and ride!

- 2-liter drinking system with tube
- Pouch is quick and easy to clean: just turn it inside out
- Shape-Shift™ technology and inner zip keep the system in shape
- Flexible, hard-wearing 0.25-mm thermoplastic polyurethane
- Handy, large-width slide opening for ease of access
- Contains no bisphenol A or PVC
- Dishwasher-proof
- Capacity: 2/70 fl oz

PRICE	
Drinkpak Hydra	\$45.00

**RIDE SUNGLASSES**

Genuine head-turners: these stylish sunglasses with metal frames fit under every BMW Motorrad helmet and offer 100% UV protection both on and off the bike. With scratch-resistant plastic lenses and close-fitting design.

- Stylish, high-performance metal-framed sunglasses
- Scratch-proof lenses, tinted in Dark Grey
- 100% UVA, UVB and UVC protection, even in bright sunlight
- Designed to fit comfortably inside your helmet
- Close fit provides optimum slipstream protection
- Soft plastic nose pads prevent pressure discomfort
- BMW Motorrad logo on both arms
- Includes BMW-branded carry case and microfiber pouch

COLOR	
Gun	

PRICE	
Sunglasses	\$119.00

**FUNCTIONAL SUNGLASSES**

These functional sunglasses developed especially for bikers guarantee flawless views along your entire route thanks to their three, highly curved and interchangeable plastic lenses, which allow you to adapt your UV protection to the light and weather conditions.

- Stylish and lightweight performance sunglasses
- Interchangeable plastic lenses for different weather conditions:
  - Brown = high-contrast with an anti-fog coating
  - Grey = lightly reflective with a scratch-proof coating
  - Clear = anti-reflective, scratch-proof coating
- Dark-colored glasses offer 100% UVA, UVB and UVC protection, even in bright sunlight
- Designed to fit comfortably inside your helmet
- Curved, close-fitting design fit provides slipstream protection
- Black plastic frame with Anthracite gummed-plastic inserts
- Soft plastic nose pads prevent pressure discomfort
- Includes BMW Motorrad-branded carry case and microfiber pouch

COLOR	
Black/Anthracite	

PRICE	
Sunglasses	\$139.00

## MIX AND MATCH/HOW TO WORK OUT YOUR SIZE

### Sizes of designs with all-round zips can be combined as follows:

(In other size combinations, only the 40-cm connecting zip can be used – not the all-round zip.)

Women		Men	
Suits (excl. EnduroGuard)	EnduroGuard suit	Suits (excl. EnduroGuard)	EnduroGuard suit
34	34/36/17/18/72	46	46
36/18/72	38/40/19/20/76/80	48/50/98/102	48/50/24/25/98
38/40/19/20/76/80	42/44/21/22/84/88	52/54/25/26/106/110	52/54/26/27/102/106
42/44/21/22/84/88	46/48	56/58/27/28/114/118	56/58/28/29/110/114
46/48		60/62/29/30	60/62/30/31/118
		64/66/31/32	64/66/32

Ask your BMW Motorrad dealer for details on how to combine previous and new rider equipment.

### How to work out your size

It's very important that your motorcycle suit is a good fit, not least because if it's too tight or too loose, it can affect your concentration. And if you're distracted, this affects your safety on the road.

Jackets and pants also have to sit right on the wearer. Your sleeves and pant legs shouldn't ride up, because if they do, it's not just a safety issue – it also means you're not properly protected against the elements.

That's why the cut of all BMW Motorrad suits is specially designed for motorcycling use, and why they all feature plenty of expandable sections, opportunities for adjustment and other clever details. To make sure your suit is a perfect fit, all of its dimensions have to be exactly right. We know that riders come in many different body shapes, so our suits are available in over 40 different sizes. To find the one that's right for you, grab your tape measure and follow these simple instructions.

#### A Height

Stand barefoot beside a door frame. Place a book on your head, and hold it in position. Mark the position of the book on the doorframe, and measure from the floor.

#### B Chest

Take this measurement while wearing a shirt or lightweight pullover. Pass the tape measure under your arms, and measure around the broadest part of your chest and over the shoulder blades.

#### C Waist

Measure around your shirt, just above the top of your pants. Stand in a natural position and don't hold in your stomach – that way you'll ensure the pants sit comfortably.

#### D Hips

Measure around your body, above your pants and the widest point of your hips.

#### E Outside leg

Measure the distance down the outside of your leg, from the waist of your pants to the sole of your foot.

#### F Inside leg

Measure the distance down the inside of your leg, from the crotch seam to the sole of your foot.

#### IMPORTANT:

These tables are intended as a guide. They show the body measurements on which the BMW Motorrad rider equipment collection is based.

BMW Motorrad offers two types of fit according to how each item is used by riders:

#### Comfort fit:

More generous cut offering greater freedom of movement

#### Regular fit:

Closer, anatomical fit

## SIZE CHARTS

WOMEN	International sizes	Size	Height	Chest	Hips	Waist	Inner leg
Normal	XS	32	168	76	85	62	78.2

	32	176	128	123	124	80

### 3-Perform

Abrasion-resistant, three-layer elasticated laminate that is windproof, waterproof and breathable thanks to the BMW climate membrane.

### AirTex

With a resistant, net-like Dynafil structure, AirTex allows air to flow freely, keeping you cool even at higher temperatures. It is extremely light, yet offers all the safety you'd expect from a motorcycling jacket, and is ideal for hot-weather riding.

### Aniline leather

Leather dyed exclusively with soluble pigments that are not layered with an overcoat or pigment coating, meaning the leather stays as breathable as it was on day one.

### Azo dyes

These may not be used in colored outer materials since they can break down into carcinogenic amines.

### BMW climate membrane

A functional membrane that meets BMW standards and is breathable, waterproof and windproof.

### Breathability

Technically defined in terms of resistance to evaporating heat transfer (RET). The lower the RET, the more breathable the material.

### CE test mark

The CE (Communauté Européenne) mark indicates that the product complies with European Union safety directives.

### ceraspace print

ceraspace technology offers unparalleled protection thanks to its unique composition – a polymer matrix containing integrated ceramic particles. This specially developed ceramic is extremely durable and resistant to high temperatures. Selective 3D printing significantly enhances abrasion-resistance without impairing flexibility or breathability.

### coldblack

Treatment for dark material that reflects the sunlight and protects against UV rays, keeping suits cooler for longer.

### CORDURA®\_500

Nylon yarn consisting of 100% polyamide. The manufacturing process involves respinning and weaving the cut polyamide fibers. Their melting point is 410 °F.

### Design

The characteristics of BMW design include the use of classic shapes and colors.

### DuPont Coolmax

DuPont Coolmax consists of hollow fibers which transport humidity to the outside very quickly by capillary action, making the material dry 50% faster than cotton.

### Dynafil

A highly tear-resistant polyamide yarn that's even more robust than CORDURA® 500/700 and resistant to high temperatures.

### Dynatec

Fabric made of Dynafil. Tear-resistant and extremely robust, its melting point is 554 °F.

### Expanding pleats

The upper material is sewn onto the stretch fabric in a corrugated form. This allows the compound to stretch, making the tear-resistant outer material even safer.

### GORE-TEX®

A membrane made of Teflon™ (polytetrafluorethylene). Countless microscopic pores prevent the penetration of large water droplets while allowing the much smaller water vapor molecules to pass through. The branch-like structure of the membrane means that it is also windproof.

### GORE-TEX® X-TRAFIT

In this specially designed three-layer construction, the glove lining is securely bonded to the membrane, which is then bonded to the upper, guaranteeing the perfect fit and the best possible grip. This also prevents slippage, which means the gloves can be quickly and easily removed, even with sweaty hands.

### Hydrophobic treatment

A treatment which renders leather water-resistant. BMW uses the vat immersion technique. During this process, only the leather fibers are coated, to ensure the pores stay open and the leather remains breathable. Depending on use, dry cleaning ensures the garment maintains its waterproof performance over several years.

### HyperKewl system

The HyperKewl water management system absorbs and stores moisture, then gradually releases it via evaporation. This has a cooling effect that reduces heat by 6 to 12 °F compared to the ambient temperature. This means the body stays cooler and is better able to perform in challenging conditions.

### Insert

A removable membrane allowing a wide variety of uses in different climates. For protection, it is embedded in a very lightweight fabric on the top and bottom, and the first layer of the jacket will get wet if it rains.

### Kangaroo leather

Boasting finer skin fibers, a tighter grain and denser skin structure, kangaroo leather outperforms cowhide leather in terms of abrasion and tear resistance.

### Keptotec

A blend of Kevlar® and PA fibers which enhances Kevlar's already excellent stretchability and abrasion resistance. Used to reinforce those areas most at risk in a fall, such as the elbows, shoulders, knees and thumbs.

### Laminate

A layered structure of various materials created by thermal adhesion (the adhesive is usually applied in spots), and particularly suited for use with all-weather membranes. Can also take the form of a lining laminate or three-ply laminate, and does not always need to be thermally attached to the outer material.

### Leather

Because all leathers are not equal, we only use the very best. With a minimum thickness of at least 1.2mm for our suits, and often much more, they offer exceptional abrasion resistance as a result.

### Material strength

The specific combination of materials and protectors used in each product determines its abrasion resistance, tear resistance, impact resistance and burst strength. Categories:

- 1 star: average
- 2 stars: good
- 3 stars: exceptionally hard-wearing in all areas

### Motorcycle-specific cut

This cut takes account of the body's contours in the riding position. The tops of the sleeves are further forwards, the sleeves and legs are angled, and there are numerous other special design details.

### Nappa leather

The upper surface of the hide. Smooth and slightly shiny, worked to a soft leather with a fine grain.

### Nickel-free accessories

All BMW Motorrad buttons and zips are nickel-free to protect the skin.

### Nubuck leather

A highly breathable leather with a slightly roughened surface, for a smooth, firm grip.

### Nyspan®

A bi-stretch fabric made from comfortable elastic yarn that distorts and regains its original shape with ease.

### PCP/CP

Pentachlorophenol (PCP) is banned under the German prohibited chemicals order of 14 October 1993, though it may be used in concentrations of up to 5 mg/kg in leather processing.

### Phase change material

The micro capsules in phase change material react to temperature changes in the environment and your body by changing its state of matter at a certain temperature. If the body/ambient temperature increases, the capsules store excess heat. If the temperature drops, they emit this absorbed heat.

### PORON

A foam that comes in a variety of densities and specifications. Our gloves use specially designed foams that provide a high level of impact protection and keep their shape over a long period.

### ProTechWool

A unique blend of wool and polyamide. It's breathable, quick-drying and heat-conducting.

### ProtectionGuard

Combines the looks, quality and technical properties of raw leather with the easy maintenance of a performance fabric.

### Protectors

The protectors used by BMW Motorrad are regularly put back on the developer's table and upgraded for every conceivable motorcycling scenario. The protectors are certified according to DIN EN 1621. All protectors are available in different sizes to ensure all riders can choose what suits them. Your BMW Motorrad dealership will be happy to help you work out your size. **NP2:** high-level impact absorption, excellent comfort, designed especially for touring, adventure and sports gear, certified according to DIN EN 1621 Level 2 (highest level of protection).

**NP Pro/NP Pro back protector (long):** will replace the previous NP2 back protector in new suits from 2018. Designed with six layers for optimum fit and flexibility, it features perforations for maximum comfort even in high temperatures. Certified according to DIN EN 1621 level 2 (enhanced protection). The long version measures around 7 cm longer and is available for adventure and touring suits, as well as for the Rallye and GS Dry suits for the first time. **NP Pro chest protector:** can be retrofitted to the Rallye suit. It can be secured with press studs in the front and is height-adjustable (two positions) Designed with several layers and perforated for enhanced ventilation. Includes a plastic splint in the middle area for better impact-absorption. The trapezoid protector is available in two sizes. Your BMW Motorrad dealership will be happy to help you work out your size.

**NPL:** lighter protection designed especially for the urban environment, offering high levels of comfort and excellent impact absorption, certified according to DIN EN 1621 Level 1.

### Schoeller® PCM

Derived from space research, this material features special paraffin capsules that allow it to store heat when warm and release it when the temperature drops. This means it can minimize fluctuations in body temperature, keeping the rider comfortable. The material is at its most effective between temperatures of 41 and 77 °F.

### Seamless bonding technology

This process involves placing two pieces side by side, then covering the join with tape and pressure-bonding them with hot glue to create a flat, elastic join rather than a sewn seam.

### Serafil

Highly tear-resistant safety yarn used in all BMW Motorrad motorcycle suits.

### Shape-Shift™ technology

This shape-shifting technology uses a partition in the reservoir to keep the drink tube flat even when the two-liter container is full.

### Safety, active and passive

Active safety measures are designed to prevent accidents, for example by using reflective material for good visibility. Passive safety features aim to minimize the effects of an accident, for instance by employing impact-resistant protectors and outer materials.

### Ventilation

Various materials and technologies are used to improve air circulation and regulation of body temperature. Categories: 1 arrow: numerous systems/zips to assist ventilation 2 arrows: specific materials used for improved ventilation 3 arrows: outstanding ventilation

### Z-liner

Here, the membrane is like a lining "suspended" between the outer material and the lining itself.
